

Blender下载与安装

在mod制作中，由于部分插件只支持老版本的原因，所以我们在下载blender时，要选择LTS版本：

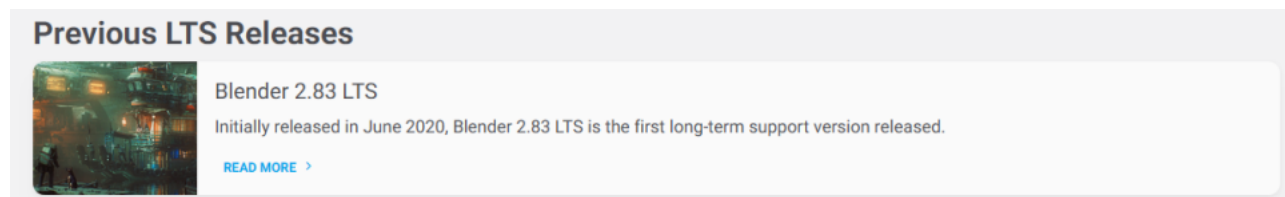

<https://www.blender.org/download/lts/>

The image shows the 'Long-term Support' page on the Blender website. At the top, there's a navigation bar with links: Download, Release Notes, Long-term Support (active), Requirements, Demo Files, Previous Versions, Builds, and a Donate button. Below the navigation bar is a large banner with the text 'Power to last' and 'Your long-lasting projects are safe with Blender LTS.' Underneath the banner, there's a section titled 'LTS Releases Currently Maintained'. It contains two cards. The first card is for 'Blender 3.3 LTS', described as 'The first long-term support release of the 3.x series. Supported until September 2024.' The second card is for 'Blender 2.93 LTS', described as 'Blender 2.93 is the second installment of the LTS program with official support until 2023.' Both cards have a 'READ MORE >' link at the bottom.

这里我们最好在电脑上同时安装Blender3.3和Blender2.93。

不要在steam上直接安装Blender，因为那样默认是安装最新版本的Blender，而我们要用到的是LTS版本。

如果有条件的话，2.83版本的Blender也可以安装一下。

The image shows the 'Previous LTS Releases' section on the Blender website. It features a small thumbnail image of a game scene. To the right of the image, the text reads 'Blender 2.83 LTS' and 'Initially released in June 2020, Blender 2.83 LTS is the first long-term support version released.' Below this text is a 'READ MORE >' link.
